[Company] Accessibility Conformance Report 3

About This Document

The VPAT is provided in four editions based on the standards/guidelines being evaluated. The editions are WCAG, Revised 508, EN 301 549 and International, which includes all of the standards.

This is the Revised Section 508 edition of the VPAT. It includes the following standards/guidelines:

- Web Content Accessibility Guidelines 2.0
- Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018

If you need a different combination of standards/guidelines, use the appropriate alternate edition of the VPAT found on the ITI Accessibility web page.

This document is broken into two main sections:

- Essential Requirements and Best Practices for using the VPAT® to complete an Accessibility Conformance Report (the instructions)
- The VPAT

Please carefully review the Essential Requirements and Best Practices sections before using the VPAT to create an Accessibility Conformance Report.

The purpose of these instructions is to promote accurate and consistent reporting of product accessibility information.

The VPAT is a template used to document a product's conformance with accessibility standards and guidelines. The purpose of the Accessibility Conformance Report is to assist customers and buyers in making preliminary assessments regarding the availability of commercial "Electronic and Information Technology," also referred to as “Information and Communication Technology” (ICT) products and services with features that support accessibility.

The Information Technology Industry Council (ITI) provides the VPAT. Use of the template and service mark does not require membership in ITI.

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Supports**	Web: Images and figures in HTML books include alternative text. Book cover images on landing pages also include alt text.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: N**ot applicable**	Web: **Not applicable**
1.2.2 Captions (Prerecorded) (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: N**ot applicable**	Web: **Not applicable**
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Not applicable**	Web: **Not applicable**
1.3.1 Info and Relationships (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool)	Web: **Partially supports**	Web: Content is structured using semantic HTML, including headings, lists, and tables, allowing assistive technologies to identify relationships between

Criteria	Conformance Level	Remarks and Explanations
• 602.3 (Support Docs)		elements. Tables are implemented using PubPub's native table block with header rows properly marked, allowing assistive technologies to identify relationships between data cells and headers. In some cases—particularly in republished public domain works— tables may be presented as images. While these are accompanied by alt text and captions, they may not fully capture all structural relationships or details, which may limit comprehension for some users.
1.3.2 Meaningful Sequence (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Partially supports**	Web: Content is presented in a logical reading order using semantic HTML. Figures and tables are consistently positioned with their associated captions, and no out-of-order content disrupts the reading sequence. In some cases—particularly in republished public domain works—figures or images may appear without clear introduction or may be positioned somewhat abruptly within the surrounding text. While this may affect narrative flow, it does not prevent linear comprehension.
1.3.3 Sensory Characteristics (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Supports**	Web: Content does not rely solely on sensory characteristics such as shape, size, visual location, or color to convey information or instructions. References to figures, tables, and other elements are identified through text labels (e.g., figure or table numbers), rather than relying only on visual or spatial cues.
1.4.1 Use of Color (Level A)	Web: **Supports**	Web: Color is not used as the sole means of conveying

Criteria	Conformance Level	Remarks and Explanations
Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)		information or distinguishing interactive elements. Links are identifiable through text labels, positioning, and visual styling in addition to color. Icon-based controls include accessible text labels.
1.4.2 Audio Control (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Not applicable**	Web: **Not applicable**
2.1.1 Keyboard (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Partially supports**	Web: Individual publication pages (e.g., chapters) support keyboard navigation and allow users to access and operate interactive elements using standard keyboard controls. However, some interface pages (e.g., landing pages) include navigation elements that are not fully reachable or operable using keyboard navigation alone.
2.1.2 No Keyboard Trap (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Supports**	Web: Keyboard focus is not trapped within any component.
2.2.1 Timing Adjustable (Level A) Also applies to: Revised Section 508 • 501 (Web)(Software) • 504.2 (Authoring Tool) • 602.3 (Support Docs)	Web: **Not applicable**	Web: **Not applicable**
2.2.2 Pause, Stop, Hide (Level A)	Web: **Not applicable**	Web: **Not applicable**
